Two-Factor Authentication (2FA)

Enhance the Security of Your Account

What is Two-Factor Authentication? 2FA adds an extra layer of security to your account. In addition to your password, you will be required to enter a 6-digit verification code generated by a mobile application each time you log in.

What do you need to prepare? You will need to have or install the Google Authenticator app on your mobile device. Learn how to set it up [\[here\]](#)

Enable

Please click the 'Enable' button to proceed.

Scan the QR Code

Open the Authenticator app on your mobile device and scan the QR code below.

Scan this QR code using the Authenticator app.

Note: If you are unable to scan the QR code, you can manually enter the code provided below into the app.

KZKVMSCDKNKVKRCZKJGDIURVJBHTGRKXGNCVSNKHGRLUSNCPIM2A

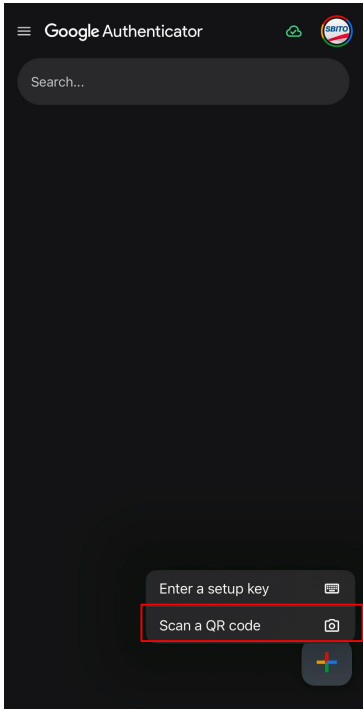

Copy

Proceed

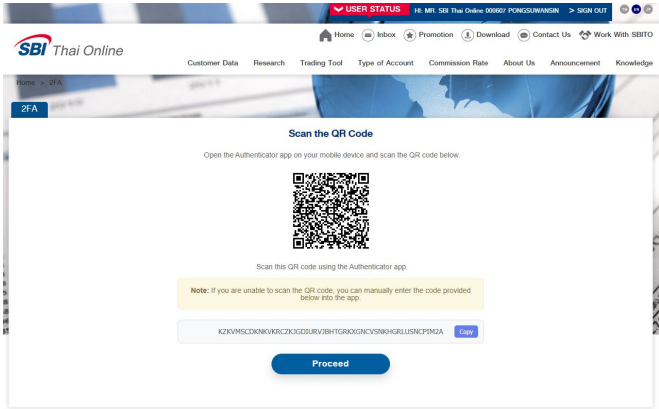

QR Code for scanning via Google Authenticator to receive your verification code.

[Learn how to use Google Authenticator \[here\].](#)

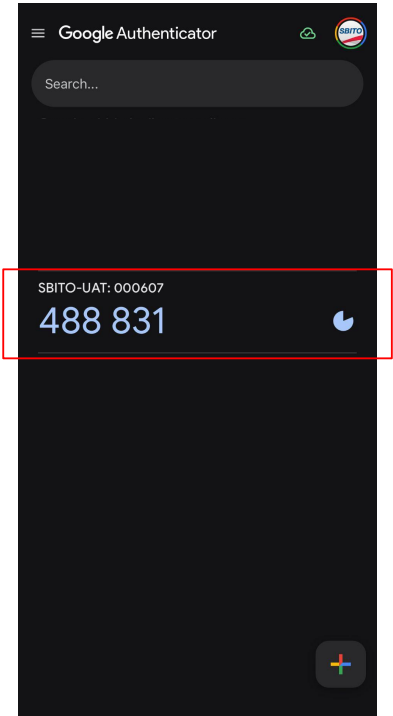

Launch the Google Authenticator app on your smartphone.

Tap the "+" icon and choose "Scan a QR code" from the menu.

Next, scan the QR code shown on your screen.

The Google Authenticator app will then generate and display your verification code.

MOBILE VERSION

Please log in to the sbito.co.th website using your 6-digit username and your password.

THEN

Enable Two-Factor Authentication (2FA) for Enhanced Security!

Dear Valued Customer,

To further enhance the security of your account, we have officially launched the Two-Factor Authentication (2FA) system! You can now access your account settings and enable 2FA to better protect your personal information from unauthorized access.

Learn how to easily set up and activate 2FA [\[here\]](#).

Important Note: Starting from on **August 15, 2025**, all customers will be required to complete 2FA verification every time they log in to the SBITO website.
